

AIST Payment Plan

Australian Institute of Science and Technology (AIST) collects student fees in advance and therefore it will comply with the following options for initial and continuing fee collection and registration:

- Students, or the person responsible for paying the tuition fees, can now choose to pay more than 50 per cent of their tuition fees before they start their course;
- Australian Institute of Science and Technology cannot require students to pay more than 50 per cent of their tuition fees before they start the course. A further 50% fee is due at the commencement of the second semester;

Any payment plan for any outstanding fees will be negotiated and will be detailed on a separate document and will only apply to the second payment.
